"The stars incline, but do not compel." HOROSCOPE By Cosette.

Friday, August 5, 1910.

That which is firmly built today is under promise it will stay.

On this 217th day the new moon is in greatest libration westward, and has Jupiter in benefic aspects. This configuration is a bright one for merchants and workers, favoring all undertakings that are of an industrial character.

Jupiter begins in this period as the planet of good fortune and blessing. Its vibrations are almost always entirely harmonious in such aspects, and all who attune themselves to the influence are likely to profit, either immediately or in the future, from something done today. The conditions of success under Jupiter are peace, mortality and sympathy. The hopeful, frank, sincere and warm-hearted are the ones to whom the good things of the day will be opened.

It is evident that efforts to win triumphs by means of deceit and falsehood will not avail, or that their results will be only temporarily successful.

Every indication is for the success only of undertakings that are based on foundations which contain absolutely no element untruth or deception.

Mercury's aspect today favors the attainment of publicity by tongue or pen. The time is probably certain to be highly conducive to the introduction of new merchandise and to selling generally.

Accountants, students, scientists, artisans and other workers who deal with figures; involved formulas and other intricate details should find unusual powers of discernment today, for Uranus is in a place held to produce clarity of thought.

The period is likely to favor arbitration settlement of quarrels and compromises.

New undertakings are under an excellent sign.

Travel should prove unusually beneficial or profitable.

The day is marked as good for deciding on the future training of children or young persons.

The time favors the opening of new places of business. On this 217th day the new moon is in

The public grounds and waterways committee recommended that the city attorney send the Denver & Rio Grande Raffway company a bill for damages by reason of fires in Parley's canyon.

The waterworks committee will hold a special session Thursday afternoon to hear representatives of the temple, the Y. M. C. A. building and the schools on their claims for water tax abatements. Whether the city can charge the county for water used in sprinkling the lawns on the county side of the joint building also will be considered.

The public grounds and waterways committee drafted a resolution in relation to gravel pits, providing that the council shall decide what suitable lands for gravel pits shall be leased. The city recorder, under this resolution, is to advertise for bids for leases on these grounds, and may reject any and all bids.

The claims committee recummended that the cialm of Mr. and Mrs. Edward A. Burley for \$2500 damages for injuries received in falling into a hole in the sidewalk at Ninth South street and willtams avenue be filed. A similar recommendation was made on F. E. According to the story of the girl, she first met Collier in Pioche, Nev., and after listening to his tales of travel and easy livelihood she allowed him to convince her of his good intentions and followed him. It was a strange experience, according to the girl, for she and Collier beat their way to Sait Lake City in box cars from Pioche.

It was the screams and the strange deportment of the pseudo boy that led the neighbors living in the vicinity of Ninth South and Fourth West streets to telephone the police Thursday night. When arrested, Miss Foster stated that she had been resisting the efforts of Collier to make a common prostitute of her, when he struck her and knocked her senseless to the ground. She was turned over to the care of Police Matton Gifford.

ENTIRE ESTATE LEFT TO WIDOW WITHOUT RESERVE

Mrs. Royle Named as Executrix and No Bond Is Required.

Judge Jonathan C. Royle's last will was filed for probate in the third district ourt Thursday.

By the instrument, all the property goes to the judge's widow. Indeed, the will breathes the man's deep love for his wife throughout.

The judge devoted one paragraph of his vill to explaining to his children why all the property is given to the widow. Here is his reason, couched in kindly, endearng language, a tribute to Mrs. Royle; "It is my wish that my wife, who ha

een so much to me and who has for so many years borne with me the burthens and the joys and sorrows of life shall, as far as I can compass it, at my death, he free from poverty, dependence or pecuniary anxiety. I am satisfied that my estate will not be large enough to divide between my wife and the children and leave her in such division enough to the utre."

and leave her in such division enough to live upon."

While all the property goes to the widow, Martha Royle King, a daughter, and her son, Royle E. King, are to have a home with reasonable maintenance as long as Mrs. Royle is able to provide them with one, but this is not to be a charge or lien on the estate, the will provides

COMMONWEAL IN DIRE DISTRESS

Land Board Hears Protests Supply Company Organized for Benefit of Workingmen Makes Assignment.

> CREDIT MEN IN CHARGE OF STORES AND STOCKS

Mismanagement Is Given as Cause of Difficulty Encountered by Enterprise.

the pet organization of the Socialists of the city, with a store at 261 South West Temple street and another at Holliday, has succumbed in "the battle for lower prices." The company made a voluntary assignment Thursday in favor of creditors, and the stock of the two stores ms been turned over to the Utah Asso-

ciation of Credit Men. The assignment, while said to be voluntary, was forced by the action of the credit men. The West Temple street store of the company, it is said, has been doing a business of more than 11sic a month, but because of mismanagement a month, but because of mismanagement the expenses have been greater than the receipts. The Credit Men's association felt that the interests of members were jeopardized, with the result that a spe-cial committee was appointed to look into the affairs of the Commonwest Supply company, and the "coluntary" assign-ment was the result.

From these small beginnings it will establish stores in every section of Salt Lake City, and before the end of this year will acquire a large tract of land, close in, for spring planting next year. From this kand, following the most scientific methods of intensive farming under a management, selected from the Agricultural college or the government bureau of agriculture, it will begin the production of a sufficient quantity of flour, meat, dairy products, poultry products, vegetables and fruits to supply all its stores and all its members. From this foundation it will attain to all that is practical in farm and manufactured products. The principle to be followed is to move slowly from one achievement to another until the principle of self-supply is extended as far as pructical."
